

Color: Specifications

The Color System palettes

Both the cool and warm palettes are designed to work in concert to create rich, engaging art and imagery.

Metals

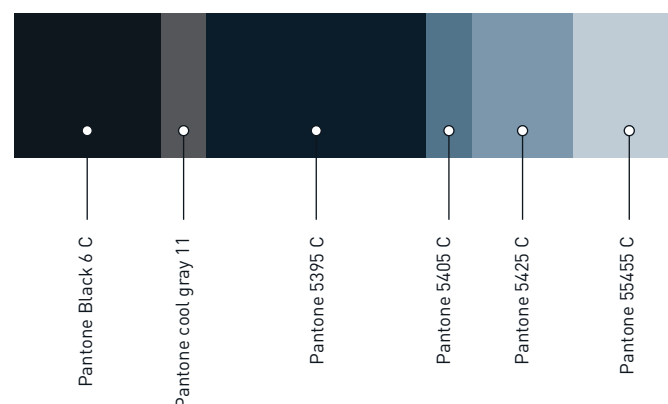

For executions such as hotel collateral, clothing and promotional materials metal inks add a layer of elegance and texture to the final work.

Signature and Initials Logos

Metallic Pantone 874 C + Pantone Black 6 C are used for both the Signature and Initials versions of the logos when used in printed materials.

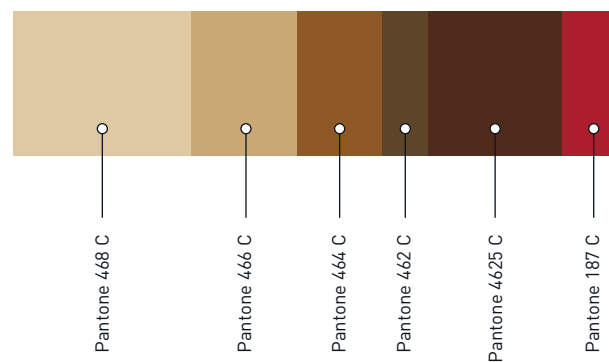

Cool palette

Cool metal palette

Warm palette

Warm metal palette
